Future Hub-and-Spoke Networking

Source: docs/architecture/future-hub-and-spoke.md

Markdown stays editable. This PDF is the reading/share copy.

Boundary: this project is still a POC, not operational guidance.

Future Hub-and-Spoke Networking

Status: future idea, not part of this POC.

A later version might have one central service that owns the session, with other clients connected around it: Unreal, instructor tools, sensors, logging, or review screens.

Not yet. First, the local backend needs stable messages, clear ordering, replayable logs, and simple reconnect expectations.

This repo does not choose a broker, protocol, discovery system, or distributed consistency model. No hub-and-spoke networking belongs in the current build.
