Future Projection Deployment

Source: docs/architecture/future-projection-deployment.md

Markdown stays editable. This PDF is the reading/share copy.

Boundary: this project is still a POC, not operational guidance.

Future Projection Deployment

Status: future deployment research, not part of this POC.

Projection mapping may become useful later, but it is a deployment problem, not scenario logic.

A real projection setup would need venue calibration, tracking, synchronization, brightness checks, safety review, and backup plans. None of that belongs in the current backend slice.

This repo defines no projection hardware, rendering layout, or mapping pipeline.
